GOALS & NEXT AIMS

My Goals :

To grow in the computer field, to learn more and more, not only stop in this skill because this is an era of AI. I want to learn more about other skills and knowledge, explore new technologies and become a competent professional.

Next Aims :

- To continuously upgrade my skills in programming, web development, data analytics, AI and emerging technologies.
- To work on real-world projects and solve practical problems.
- To contribute to the tech community and make a positive impact.
- To keep learning, growing and adapting to new technologies.

“The expert in anything was once a beginner.”

– Helen Hayes
